The Digital Copies are all the images from your photo session in the online gallery. The images will have been color corrected and have a professional look. The only images on your CD that have special digital retouching will be ones you've chosen also as prints or album selections. "Special retouching" would be removing people from the background and any additional work that could have extra fees (see digital cost on bottom).

Standard Digital Copies At least 800×600 resolution suitable for very small prints, max. wallet size, pc and small digital photo frame viewing, e-mail and social networking. **High Resolution Digital Copies** Full resolution images are suitable for printing large prints. CD will come with copyright release

A La Carte Prices

All Proofs May Be Purchased for \$100.00 – Proofs are printed in a 3.5" x 5" format and have no watermark, however, all images are copyrighted and may not be legally reproduced. Because they are printed on professional Fuji Matte Portrait Paper, the texture of the paper makes scanning the proof difficult and the quality of the output is extremely poor. The proofs are great for creating an album or for scrap booking.

Printed proofs may purchased for \$100 once session is completed.

Standard Photo CD \$125 – Includes all proofed images

Suitable for small prints, maximum of 3.5×5, pc and small digital photo frame viewing and e-mail
